VITAFER.

The Greatest of all Tonic Foods.

TITAFER is the essence of finest British milk, sterilized-concentrated and granulated-combined with the Glycero phosphates of Sodium, Calcium, and Magnesium.

Vitaler is rich in body-huilding and nerve-restoring clements, the milk constituents form flesh and muscle, whilst the Glyser phosphates revitalize the nerves and brain. This latter effect is due to Organic Phosphorus being present in the food in the particular form in which it occurs in the human

pody... Vitafer is a genuine restorative, and not a mere transitory atimulant.

THE UNREST IN JAVA.

EXPECTATIONS OF TROUBLES IN NEAR

lishes the following special article :-- Without seeking to enquire too closely into the reasons, it seems pretty clear that if there is not exactly a conspiner of silence on the part of the Press of Java, the papers there certainly fill accurately to reflect the real state of affairs in the "sland and the imminence of a revolution against Dutch rule.

We are in close touch by mail and cable with reliable correspondents in Java, and according to the information which they furnish the t ouble, which has long been brewing, was expected to come to a head this week. The officials, apparently, have inside knowledge of what, is transpiring, because warnings have been issued to Europe as employed in the interior of the country on isolated estates, railway construction work and the like, away from populous centres. In some districts the Europeans have been ordered to collect in a sugar factories where they can offer, if necessary, an armed defence to revolu-

The troops are not regarded as sufficient "to suppress a general uprising," but parties' are being distributed among the disaffected districts and there is an unusual display of military activity.

The secret society having for its motto "Jav. for the Javanese," which was started not so long ago, is now said to number hundreds of thousands of members. Cheribon alone has about 30,000, and other places, Sourabaya fer instance, even more. While some of the objects aimed appear to be excellent from the point of view of the Jayanese, the means likely to be used will include assassination and violence. Blood saed is regarded as almost certain, as the natives are declared to have quite got out

of hand. While in some respects insufficiently strict, Dutch rule is described, generally speaking, as harsh and unjust " what is wanted, remarks one of our correspondents," is tirmness combined with justice, and that is where the Dutch have failed to make good." "You may imagine how troublesome things are," he cutinues, when big firms employing handreds of Europeans are absolutely stopped—some men being in one place and others banded together in others. Sugar factories are in a state of defence and can be readily manned. Yet, superficially, nothing is noticeable except the boycotting of shows and refusals to drive Europeans in some

Our, correspondent confirms the news that two leaders of the Secreb Socie y have been banished to Timor and that one of the Princes of Solo has been arrested. Snight local rows have occurred where toxtives have assaul ed Europeans, but there has been no serious disturbance. " And yet," concludes our informant, "within the next few days we are led to expect a rising of a very grave nature, probably worse than that of 3) years ago."

We can only hope that our correspondent's fears are exaggerated and that the clouds will blow over. But our readers in Sumatra and elsewhere will doubtlers be interested in the information that has reached us, and to which we now give publicity.

THE KAISER AS AN "ARTFUL DODGER.

"The German Emperor, who is spending his holiday in the Norwegian hords, enters keenly into the sports of the villugers. Recently he organised a regutta. one of the chief events of which was a

sculling race for ladles only. After a keen fight there was some disuppointment that the first prize went, not to the local lavourites, but to a pair of strangers, two handsome ladies whe came from some neighbouring village. When the Kaiser come to distribute the prizes, however, the mystery was solved, His Majesty caused the two strangers to stand aside, and awarded the first prize to the second crew, remarking that he and ventured to sinuggle into the contest two of the best looking and most promising young Inda in his yacht's crow, dressed up in female attire, to get as "grunners up !" and encourage the others to still more stronuous efforts, and so achieve the bost possible record.

KWANGTUNG NEWS.

(From Our Own Correspondent.)

September 3. It would seem that one Leung Kalichin a member, of the National Assembly in Poking, has been trying to induce the A sembly to establish Confucianism as the recognised religion of China. This attempt has called forth a vigorous protest from 518 | some of the other members of the Assembly. and some very sensible remarks have been made. A The protest has been sent by telegram to all the provinces in China, and) the leaders of the recognised religious, which to-day are supposed to enjoy freedom in China. We see "that those who are supposed to be interested are the Buddhists, This is disputed by some authorities, but the Tanists, the Mohammadens, the Roman Catholics and the Young Men's Christian in the first century.

Shorthand Used in Ancient. Rome. Shorthand is so intimately associated in our minds with the rush of modern

times and methods that it is startling, says a writer in the "Philadelphia Re- above Company will be held at the Comcord," to learn that some form of it was known to the ancient Greeks and Romans. Yet there appears to be little doubt that the orations of Cicero were reported with a skill and rapidity equal, perhaps, to those of many modern stonographers. It is, however, difficult to state just

how old is the system of abbreviated [writing. The Greeks called it tachygraphy. Xenophon is believed to have employed this system of taking notes of the lectures of Socrates, which would take it back to the fifth century before Christ. there seems to be no doubt about its use!

BULGARIA AND TURKEY. SUGGESTED ANTI-GREEK ALLIANCE.

LONDON, Sept. 3.

The Bulgarian delegates: General two Military advisors, have left for Constantinople to conduct the negotiations regarding Adrianople and other pending questions between Turkey and Bulgaria.

Turkish circles are beginning to incline very strongly to a close understanding with Bulgaria, as a most effective ally against Greece, and even an Alliance is mooted.

The right bank of the Maritza will be the most knotty point in the negotiations. The Turks apparently intend to insist upon the retention of Demotika, Ortakeny, and other places, but may possibly be ready to effect a deal by return concessions.

A telegram from Constantinople states that the Bulgarian Commis--sion arrived and was received with military honours.

The little notice was no more or less than an invitation to the advisors of the Government, foreign and Chinese, to assemble in secret concluse for the dissussion of 'certain grievances." TEN DAYS

To the cognescenti the momentous character of this announcement was instantly apparent, and diness. At Peking's one good botel lostcount of the courses and missed dance after we dance what the Saturday night hop in anxious preoccupation over the unprecented state of mind this must represent among many of the. most correct and uniminginative people in sll this great apital. The constornation among the Government may be measured by the fact that six letters to prominent Southern sympathisers went salely through the post unopened, unread, unprescribed. The tension was awful, a

The great day at last arrived up-stairs in the Hongkong and Shanghai Bank, where the meeting was to be held, Cossack officers and Mexican blue jackets were setting out 400 little chairs in rows, while some cavalry subaltems of the Hongkong Bank guard were laying out the impedimenta of alternoon tes in a corner.

Carriages were now coming up Legation Street in an endless line, and from them descended a never-ceasing line of grayheaded, statemanlike veterans, many of. them covered with decorations. Among these latter the Orders of the Purple Parrot and the Smiling Sloth were most in evidence, having been presented liberally a month or so sgo to advisers whose special qualification was that their dvice has not been asked over a period of six months An hour before the meeting was to begin, the room was packed and the Swiss Marines at the doors declared that not and cruisers, to be built in Austrian yards. still extended past the Russo-As atic Bank building, and a great cloud of rickshaws containing under advisers, secretaries to advisers, and other fledglings to this great

But the advisors within the hall became re-tive; and a swelling murmur; of resentment Fung Kwok Cheung, Commander- and protest came form the horde of rChief of the Northern troops, has advi ers outside, which now extended almost to the Chienmen gate, and whose foremost members were new pressing up the stairs and shouting "Meeting, Moot-India Association, at Caxton Hall, Westing" in eleven languages and several

At last some one had an inspiration "Sir Robert Bredon's Band !" The ides caught like wildfire. Out went the call to the faithful bandsmen, and soon they has gathered in the midst of the seething and excited crowd, instruments in had and led by Sir Robert himself. In the excitament of the moment it was not noticed that many of them had been at the meeting all the timb as qualified advisors.

The leader flourished his baton, and to the lively strains of "The Girl I Left. Behind me,"an impressive procession started down Legation Street, rounded the corner of the Hata-men Street and marched in rather unsteady order towards the Von Ketteler Memorial at the corner of the Austrian glacis, when a halt was called, and the enormous cavalede broke ranks and took up positions on the vast tract of our clear duty to help and foster the ground extending from the Legation Wall movement, and guide it into the right across the road to the Hotel Mascatte, the channel.

A Natural Remedy

Time was when disease was thought to be due to the direct influence of evil spirits, and exorcism and magic were invoked to cast it out.

WICHY-ETAT COMPOUNDS to make your own digestive serated vator.

Science has taught us wisdom. The evil spirits exist still. We call them "Disease Germs," and they also must be cast out. Once lodged in the stomach or intestines, fever with its hallucinations, or biliousness with its aches and pains, is the result.

FRUIT SALT

is the approved remedy for driving out disease germs. Its action is quick and thorough. It clears the intestines, rouses the torpid liver to new life, stimulates the mucous membrane to a healthy action, and cleanses and invigorates the whole digestive track.

It may be safely taken at any time by young or old.

It is very effective in the early stage of Diarrhoea By removing the irritating cause.

Be prepared for emergencies by always keeping a bottle in the house.

FATAL ACCIDENT TO MR. CODY.

Detailed Account.

while flying near Aldershot on the 7th forthcoming "Daily mail" race round Sudan Givil Service, the old Oxford and has met his douth, but, gullant veteran shared his late.

The machine was, the new large bi- the Atlantic. plane which Mr. Cody had built for the purpose of competing in the , " Daily Mail" scaplano race round Great Britain for a prize of £5,000, which was due to start on the 10th ult.

It appears that the fatal journey was the second which Mr. Cody had made on that morning as the final tests of his biplane. At an early hour he-ascended from his shed on Laffan's Plain and successfully accomplished a flight of 70 miles.. On this trip Mr. Cody carried another passenger, Mr. Keyser, who had driven over from Reading with Mr. Evans for the purpose. It was the intention of one of the sons of the airman, Leon Cody, to have accompanied his father on the second journey, but at the last moment he made way for Mr. Evans. The start for this flight was made shortly after 10 o'clock. Within half an hour the disaster happened. The few spectators who saw the occurrence from a distance appear to agree that immediately before the mishap the biplane was flying leisurely and steadily. Suddenly tho wings were observed to bucklo up, and the machine fell to the grand.

MESSAGE PROM THE MING. The following message was received by General Sir Douglas Haig from the

King:-"I have received with profound regret the news of the death of Mr. Cody. I saw him on several occasions at Aldershot, and always appreciated his dogged determination and dauntless courage. His loss will be much felt at Aldershot, where he did so much for military aviation. Will you convey to Mrs. Cody and her sons my sincere sympathies with them in Cody believed to be among his father's their serrow?"

MR. CODY'S CABEER. Samuel Franklin Cody was a native of Lirdville, Wise County, Texas, and was born in March, 1862. His early years were spent in adventurous wanderings and in acquiring on the prairies that renutation for fine horsemanship which together with a striking resemblance personal appearance, often led him be confused with the other Cody, " But falo Bill," of whom he was, in fact, no. relation. The "" Colonel" frequently attached to his name was an altogether unofficial designation.

It was as a kite-flyer that Cody first came into prominquee. When he arrived in England some 22 years ago his dramatic appearance and confident manner, while they surprised those who met him, did not greatly, impress his hearers with the seriousness of his ambitions. But Cody was of all men the least liable to beliefs by contempt, ridicale, or even part. Ho was too expert a figer for that. London recently. Gradually, however, his box-kites forced themselves into notice. It is hardly necessary to say that a kite equipment to-day forms part of the organization of almost all modern armies. Even the aeroplane is not likely soon to displace it altogether.

HIS CARPER AS AN AIRMAN. With the improvement of the petrol motor Coly's genius and energy found a field for infinito adventure. He carried a few tools in his pocket, and when his machine needed repair he came down and tinkered it himself with such material as could be procured from the local blacksmith. It was this sporting way of doing things, coupled, no doubt with his age and picturesque appearance, which endeared him to the crowd. > CONVERCTING ACCOUNTS OF THE ACCIDENT. Mr. Hugh Foster, the deputy-coroner for Aldershot, held an inquest on the bodies of Mr. S. F. Cody and Mr. W. H. B. Evans at the Connaught Hospital,

Gunner Hurold Maxtod, R.G.A., said that through a pair of prismatic field glasses he watched the whole of Mr. Cody's last flight. He said positively. and the cross-examination of the Coroner and of Mr. 'Perrin' did not shake his evidence, that the rear part of the machine broke away first and fell to the ground. Then the two passengers well from the front of the machine, and directly afterwards the two wings closell together, tips appermost, above the fuselage.

Mr. Charles Norman Keyser, 20th Hussars, said the whole machine seemed to crumple up, as la was watching from a distance of ball a mile. The two men fell out a second or two afterwards. The aeroplano was about 100ft, up when it crumpled, and lit dropped about 20ft. before the two men fell out. They were close to Mr. Cody's shed, and were glid-

MR. PENNIN'S VIEWS.

Mr. Harold Ernest Perrin, secretary of the Royal Aero Club, said that he and committee had examined the wreckness. The machine was very much broken up and there was very little to assist them in coming to a conclusion. In the inquiry which had yet to be made they would have to go carefully into technical details, "and to do that they would need drawings of the aircraft, which Mr. Leon papers. There was a top right-hand central section, they were given to understand, that was picked up about 100 yards from the trees into which the remainder of the machine fell. He thought that was the piece that was seen to fly away. He thought that if Mr. Cody, and, his passenger had been strapped in they might mot have been killed. The seated were unserntched. There were no spars sticking across the fuselage which might have injured the aviators. A PROPOSED MEMORIAL. We have received from the joint commiltee of the Aerial Leagues an appeal asking that the support of "The Times." which was given last year to the fund raised by the Lougues for the widow and orphans of Lindsay Campbell, the Australian airman, may be extended to a great national subscription for Mrs. Cody and her family, who have been left in very straitened circumstances.

Subscriptions may be sent to Colonel H. S. Massy, 25, Denison House, Vauxhall Bridge-road, S.W. All cheques, and postal orders should be crossed "Lloyds

Bank, West Kensington." In the House of Commons Mr. Mac-Callum Scott asked the Prime Minister whether, in view of the services rendered to aviation in this country by the late-Mr. Cody, it was proposed to make any provision for his dependants.

Mr. Asquith said he was inquiring into this matter, "Times Weekly,"

Dr. Seeman, of Philadelphia, and Dr. Albee, professor of orthopiedic surgery in the University of Vermont, ressed in operating clothes, with gloved hands and muffled faces, dipped their instruments in the antiseptic. The crowd if passengers in the gallery of the diningroom looked on, too fascinated to with-

draw and too moved to speak. With the quick hand of the practised operator Dr. Semnan made an incision. Men held their breath and women gasped. The surgeon's hand came out. The iswed spectators gradually became aware that he held an enormous ham. Apples, grupes, a loaf of bread, a pincapple next spipeared. But it was only when the putient sat up and in deep tones domanded a glass of beer that the semi-hysterical on ookers realised that they had been hoaxed. BLUE FUNNEL LINER ASHORE.

The "Times" of July 29 states :- Two serious strandings were reported yester. day, the vergets concerned being the Blue Funnel-liner Titan and the Elder Dempster steamer Winneba. The former, which UNDERTAKES is on a voyage from Tacoma and Yokohama to London and Taverpool, has stranded on Mussari Reef, Jeddah; she is leaking in No. 1 tunk and in the fore- juch as. peak, but her position is described as not unfavourable. Her cargo, which consists principally of hemp, a valuable commodity, is not being discharged, but only shifted from the fore to the ait part of the vessel. There appeared to be some Toubt as to whether the vessel had called at the Straits Settlements, but we are informed that she shipped some cargo at Singapore. The Titum is a steamer of 8,980 tong, built in 1906, and managed by Moure, A. Holb and Co. It is understood that the hull is not insured in the market, but interests in corgo are undoubtedly large.

Nervous Fatigue, Languor—

The power to excel, the confidence which ensures her brilliant; successed says the talented violinist. Miss Sybil Keymer, is entirely due to her abundance of vigorous nerve force created by Phosferine. How greatly the numerous distinctions and triumphant career of this accomplished musician are promoted by the brain energy and physical stamina development by Phosferine, is evident from Miss Keymer's admission that the torest "enabled me to do myself justick." This power to excel, this ability to make perfect use of her skill, depends upon the marvellous control and steations of the muscle nerves Phosferine has given her, and to which she owes the entrancing tone and quality of her musical renditions. Naturally, thus energising effect of Phosferine was accompanied by the disappearance of the headaches, listlessness, and fatigue, which were the bane of less public appearances, and it is this happy outcome which impels Miss Keymon. to testify to the exceptional advantages to be derived from Phosfering.

Promptly Remedied.

Miss Sybil Keymer," Riversmere," Albany Rd., Leighton Buzzard, Eng. writes: "I think I should inform you that I have recently derived very great benefit from the use of Phosferine. In the course of my professions I have to travel a good deal in getting to my various concerts, and I find that since using Phosferine I am never troubled with the headaches and listlessness which follow a long railway journey, particularly during hear weather. This is of very great importance to me, as frequently only at very little time elapses between reaching my destination and the commencement of a concert, and it is such a relief to feel fresh and ready for playing in public undisturbed by the fatigues of long travelling It is because I feel that Phosferine enables me to do myself justice as a violinist, preventing any of the unsteadiness of the muscle nerves, which is so harmful to tone and quality, that I confidently commend the torne at every opportunity."-July 11, 1912.

Although there are nineteen items on the programmie, not one of these could be called a "fill-up" for they are all capital "turns." The only regrettable feature was the fact that the audience was not larger, but we feel confident that with such a combination of talent, that Col. Fillis will see crowded audiences during the remainder of his ten or twelve days' visit. The circus is housed in a hugo marqueo at Couseway Bay, and the seating accommodation i exceedingly comfortable. A very noticeable feature of this circus, is the truly English air which seems to predominate: the clowns are English-speaking, and there is something Anglo-Saxon about the whole performance. IS IT EASIER FOR A WOMAN TO BEG?

An Artist's Poverty.

TRICEDY OF A DRVOTED, FAMILY. The financial worries of a kind husband

and an indulgent father were apparently the cause of a pedularly sad domestic tragely which was discovered last month at Little Kingshill, a hamlet Great Missenden, Bucks father, mother, and child were all found

dead with bullet wounds in the head. At the inquest, which was held recently, the jury-bound that Mr. Frederick Herbert Gallon, a brother of Mr. Tem Gallon, the novelist, murdered his wife Mabel and his little son Laurence,

and then foloniously killed himself.

Mr. F. Gallon, who was forty-four years of ago and was described as an artist, had lived in the little wooden-walled cottage, which here the name of The Hur, for twoyears, and was devoted to his family, who

all lived happily together. Mr. Tem Gallor, the first witness at the inquest, identified the dead man as his brother, but said he had not seen him for ten years. Some years ago his brother icformed him by letter that he was married, and later wrote that he had a boy, but he the witness) had never seen either the wife or the child until that day, nor did he know their names. He did not even know that his brother was living at Little King-shill. His brother had always been in monetary difficulties. For many years past he had asked the witness to help him financially, and he had invariably "done to. The Corener: Do you know anyone of

the name of Ada Cates, who lives in Nor-Superintendent William Bunker, described the finding of the bodies late at night. Mrs. Gallon, who was fully drawaed, was lying on her back in the front downstairs room. A chair had been overturned, and it appeared that she had been doing needlework. The boy" was dead in his cot in a bedroom, and Mr. Gallon was dead on the floor of the same room, and a revolver containing three spent and two live cartridges was near his right hand. The witness found £1 Is. 21d. in the man's pockets and a letter, which read "Sincere regrets to the lundlord, who has been most considerate." The ashes of several letters

were found in a fire-grate.

TOO PROUD TO EEG. The following portion of a letter from Norway, addresed to Mrs. Gallon and beginning "My descest Mabel," and signed Ada Cates," was read by the coroner :-I know that Herbert has quarrelled with Tom G. It is more difficult for a man's pride to beg than for a woman, but under the circumstances could not he apply to T. G., who is well off and has no family? Surely he is botter able to help than uncla who has had such enormous troubles and losses. I quite understand that Herbert is not accustomed to humble himself to his brother, and it is not pleasant. I know for either of you. I send you eighty-five broners (£4 10s.). The medical evidence was that death

OUR" DEAD " LANGUAGE.

had been instantaneous in each case.

American Way of Improving it by Blang.

An article by Mr. W.G. Faulkner, in "The Daily Mail " last month, about the growth of American slung in the country due to the moving-picture business has provoked a response in the editorial

American sewspaper. It really is sad," states the writer, to think of all those living and virile words being hurled at a race of people speaking a dead language. For the English of many articles in "The Daily Mail " and in many other British peri-

odicals is as dead as a Latin grammar. "That list (of slang terms) include some of the liveliest words ever created and they are the very words needed for lively productions like moving pictures -that is why they are used.

"Kipling did not write English-he wrote the Cockney, the Yorkshire, th Irish, and the Asiatic dialects of English James M. Barrie writes not English by braid Scots." Arnold Bennett went to France for his style and to the potter of the Five Towns for his living language. The conservative English for which Mr. Faulkner pleads is of no use in literature unless it is poeticised by a Corelli, surcharged with sea-slang or border along or French or some other living language by Stevenson or a Doyle."

MILLIONAIRE FOR TRIAL.

A millionire manufacturer of arms and ammunition, of Berlin, whose name the newspapers do not print, has been indicted on a charge of abducting the beautiful soventeen-year old daughter of a wealthy Swiss merchant and manufacturer. It is alloged that he mee the girl in Swifzer land a few months ago, persuaded her to meet him at Frankfurt on Main, and then disappeared with her. The girl's former governess informed the parents that the couple had gone to the fashionable German resort of Westerland, on the Isle of Sylt, in the North Sea. The father went to Westerland and induced the girl return home. He instituted proceedings against the millionaire, whose trial will shortly take place at Frankfurt-on- Main

SPURNED \$3,000.

A piece of hard luck has just come to light (says the "Wostern Mail "). gentleman was spending a few days at Barmouth, and was strolling along the beach, when he saw a peculiar object left by the receding tide.

It was about 40 inches in circumferenco, and must have weighed close or 20lb. He poked at the thing with his Typhoon later he found that what he had rejected was ambergus, and that the commercial value of the article in from £12 to £15

per ounce. The gentleman had, in fact, coolly passed by about £4,000. When he thinks about the matter he usually kicks him-

# BROKE OUT ON Allment-Started with Feet and

Wrists. In Blebs Like Small Swellings. Would Itch Something Awful. Cured by Cuticura Soap and Ointment.

58, Brook St., Halifax, Eng.—"My all-ment started with my foot and wrists first, then is gradually broke out up my legs and arms and I also had it on the pit of my stomach It broke out in blobe like small swellings about as hig as a six-pence and they used to itch something awful, more . so at night time. Now and again lumps the size of a shilling would rise on my shoulders and body, and legs and itch terribly, then so away again. I suffered eighteen months. Seeing the adver-

tisement of Cuticura Scap and Ointment I tried them and I found that the first tablet of Cuticura Soap reliated me, so in all ? had three tablets of Cuticura Sonp and one box of Cuticura Ointmont which cured ma." (Signed) F. Glover, May 23, 1912. Not only are Cuticuta Soup and Ointment most valuable in the treatment of eczemia

and other distressing cruptions of skin and scalp, but no other emollients do so much for pimples, blackheads, red, rough skins, itching scaly scalps, dandruff, dry, thin and falling hair, Cutleura Soap and Olntmont sold everywhere A sample of each with 32-p. book free from nearest depot; F.
